

Impact of 2016 Kumamoto Earthquakes on Nippon Gohsei (Final Report)

Our deepest sympathy goes out to those affected by the 2016 Kumamoto Earthquakes. We pray for the fast recovery of the affected areas as early as possible.

We would like to make our final report on the situation of Nippon Gohsei as of November 30.

Description

Situation of Kumamoto Plant

Production was resumed from late November for the series of "Gohsenol" and "Gohsenex" whose production resumption was delayed.

As a result, our Kumamoto Plant returned to normal operation.

We would like to express our sincere gratitude to all of you for your support and cooperation toward the restoration of our Kumamoto Plant.
